

When Employee Care Really Matters

OPPORTUNITY OVERVIEW

+ TRIAGE THEN AND NOW

The telephonic nurse triage industry has been around for over 15 years, and has proven fairly effective.

The problem is, the companies that started in the triage business way back when are still doing it the same way. Another problem we see is lack of technology in this service.

TriageNow entered this industry with a plan to disrupt the complacent marketplace and drag the triage world into the 21st century. With our own proprietary software and technology-first approach, we are offering our clients features like:

- HRconnect
- Interactive Phone App
- Text messaging of care advice

+ WHO IS TRIAGENOW

- A time of injury solution medical call center
- Registered Nurses available 24/7 to triage workplace injuries
- Technology-first solutions!
- Proactively reduce number of First Aid claims and medical costs associated with minor workplace injuries
- Lower E-mod rating and overall Workers' Comp cost

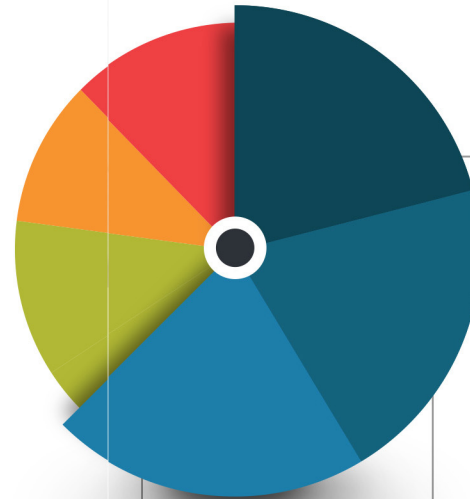

+ THE STATUS QUO...

ANYTHING GOING TO...

- The Emergency Room
- An Urgent Care Clinic
- An Occupational Clinic

... is likely to become a claim and an expensive medical bill. Add in a bump in your E-mod and increases in your work comp policy costs, and these minor injuries really add up!

+ THE TYPICAL WORKPLACE INJURY ENVIRONMENT

\$42.07B

IN WASTED EXPENSE

A TOTAL OF
\$60.2 Billion
PAID IN BENEFITS

- Sprains & Strains
- Bruses & Contusions
- Soreness & Pain
- Unreported
- Fractured
- Cuts & Lacerations

+ LAG TIME REPORTING

According to a study done by Liberty Mutual, the following increase in expense occurs with each delay in reporting:

4-7 Days	9 %
1-2 Weeks	20 %
2-3 Weeks	32 %
3-4 Weeks	48 %
5+ Weeks	72 %

How much money are you wasting?
